The Editor,

Flinders needs a strong local voice in a Redmond Liberal Government and, if elected as Member for Flinders, I can deliver results for our region.

The Nationals' sole member of State Parliament has sat as a Minister of the Rann Government throughout the past two terms - the same city-centric Labor Government that has neglected the regions.

Yet it has become clear that the Nationals have failed the regions and have not been a strong voice in the Rann Labor Cabinet.

Under Isobel Redmond, the Liberals have committed to quarantine 25 per cent of mining royalties, meaning an extra \$40 million for regional infrastructure next year.

Priorities for Isobel Redmond and me also include more support for country health services and educational opportunities.

The Redmond Liberals will also deliver more water for the Eyre Peninsula - granting third party access to SA Water's pipelines on the Eyre Peninsula to increase investment in desalination plants and other local water infrastructure.

Flinders needs to continue to be represented by a Liberal to deliver these results.

Only the State Liberals can deliver for the regions.

Peter Treloar

Liberal Candidate for Flinders
